III. – RESEARCH THEME

My activities relate to the interpretation of images of structured and technical documents within the LITIS laboratory. My interests relate to the analysis of the structures of documents, the recognition of symbols, the modelling and the acquisition of knowledge for the implementation of generic platforms of interpretation of images. They also aim at applying to the mining, the classification and the automatic sorting of documents.

III. – VIDEOS AND EXPERIMENTAL MATERIAL

Moments of relaxation might be the occasion to share and show original scientific video documents (not too long) or experimental material (which could be used by all the participants). A video party and an experimental demonstration session have been planned. Could you indicate video or experimental material you would like to present.
